## ABOUT ME

Experienced developer in the creation of web, mobile, and desktop applications. I have led teams that have transformed innovative ideas into exceptional digital solutions. My specialization includes developing intuitive applications and robust CRM|ERP systems, using technologies such as React, React Native, Node.js, and others.

## WORK EXPERIENCE

### XPLOY Solutions, Software development Lead

NOVEMBER 2023 - PRESENT

- I lead a team focused on digitizing and automating manufacturing processes for a major construction company in the USA. I oversee the implementation of various software solutions across multiple platforms that have streamlined and enhanced the company's strategic outcomes.

### IDT Corporation, Sr Software developer

March 2022 - November 2023

- IDT is a leading telecommunications company in the USA. I drive internal progress by optimizing and developing solutions using Javascript, React, and Node.js. Additionally, I actively collaborate with Zoho and other CRM tools.

### Version Do, Sr Front-End Developer

ENERO 2023 - SEPTIEMBRE 2023

- I implement interface designs for websites and mobile applications, focusing on React JS and TypeScript.

### Marmotech, Sr. Software Developer

DICIEMBRE 2022 - JUNIO 2023

- CRM administrator specialized in software integrations for MS Dynamics Plugins built with Javascript and C#.
